Project Proposal

Web-Application For Tours

Jeemi Thakkar(202112042)

Devam Panchasara(202112092)

Nisha Shah(202112125)

Theme:

Tourism has turned out to be an economic booster contributing to the economic development of many countries over the last few decades. People see holidays as a necessity, and not as luxury in the present scenario. Tourism calls for coordination and cooperation between travel agents, tour operators, and tourists. Tourism has a few major elements – destinations, attractions, sites, accommodation, and all ancillary services

Purpose:

The purpose of developing Travel times is to reach out to a wide range of travel enthuse peoples. The app provides travel packages, its fares and the description about the tour. The user can choose the from the available packages and go through various feedbacks from the previous travellers experience

About our webapp:

Our web app will have two interfaces:- Admin and User.

User interface will have the following modules:

Packages: Users can witness the different packages like winter and summer package with description and price along with a picture.

Gallery: Here user can see all the pictures of the of the different location.

About us and Contact us: Here user can see the history and details about the travel time and user can contact the Travel desk on the given number for more inquiry and book their package.

Feedback: The user can view and add his/her feedback.

Admin interface will have following modules:

Admin login: Admin will first have to login.Admin can login through /adminLogin.

Manage Package: Admin can add a new package, package type, it's price, its description and its image and admin can also delete the package.

Add Gallery: Admin can manage the pictures that are shown on the website.

View Feedback: Admin can view all the feedbacks given by the users.

Our website: https://tourstimes.herokuapp.com/

Flow Chart:
